REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record, Kametani, U.S. Patent 6,839,346 fails to teach or suggest the following:

A method of routing a packet in a routing device having a main processor that includes a main cache table and an instant cache table, the instant cache table storing a recent address and a recent interface associated with the most recent packet transmission process made by the routing device, the method comprising (inter alias): checking whether a destination address of a received packet is identical to a recent address, transmitting the received packet to a recent interface or to the routing device based on whether the address belong to the routing device or identical to the recent received address, and if the destination address is identical to recent address, calculating a Hashing Key value (N) of the destination address if it is determined that said destination address is not identical to the recent address, checking whether the destination address is identical to an Nth cache address stored in the main cache table, transmitting the packet to a first interface corresponding to the Nth cache address if the destination address is identical to the Nth cache address, as indicated in independent claims 1 and 14.

Art Unit: 2616

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
